OPPOSITION AGAINST "BOSSISM"

Roosevelt Delegates Will Elect Delegates-at-Large According to Instructions But Want Something to Say About These State Candidates.

Special to The Courier.
HARRISBURG, April 29.—The Republican State Convention, which meets here on Wednesday will be a matter of serious doubt whether it will be a "boss" convention. The Roosevelt delegates were elected under pledge to favor the Presidential candidacy of Theodore Roosevelt. Their obligations will be discharged when the delegates-at-large to the National Convention shall have been chosen, and a considerable number of them will absolutely refuse to follow the dictation of Flinn in the nomination of the State ticket. In this high resolve they will have the encouragement and support of the Roosevelt contingent. Monroe has no state, Flinn and Van Valkenburg have. In its making not even their faithful friend and ally, the battle-scarred Ernest Francis Johnson of Washington county, was allowed a look-in. It promises to be a merry war and unless one side or the other has a decisive majority the convention is apt to sit for several days and prove to be the most exciting since the 1908 convention was held in 1905. Flinn and Penrose will be present in person to command their political forces.

Flinn and Van Valkenburg spent several days last week in Philadelphia hatching up a state. Flinn named Senator A. W. Powell of Allegheny county for Auditor General and Van Valkenburg wrote on the slate the name of Robert K. Young of York for State Treasurer. As soon as this leaked out there was turmoil in the ranks. The independent element promptly kicked. Many of them boldly announced that they had not deposed one boss to set up another and that they proposed to have their say about the nominations. Further details concerning the Flinn slate were promptly suppressed. In this meantime, the Roosevelt organization had not been idle. The independent element had been thoroughly canvassed and hints of help scattered. Flinn is frightened. What looked like a pinch last week has now become a chance this week. It is rumored that Teddy will be asked to help out by a single blast urging all Roosevelt delegates to follow the banner of Flinn. Another plan suggested by "Dick" Quay, is to call a caucus, and, if possible to get a majority of the convention, pass resolutions endorsing the Flinn ticket. If the caucus should fall short, the plan is to count a majority and announce it just as the Quay caucus did in 1905, to the complete deception and utter undoing of the Flinn machine. The trick is old and will not work. It will be too closely watched.

There will be no lack of candidates, and if the Flinn machine is repudiated by the convention there will be a free-for-all race that will furnish plenty of political excitement. This leaked candidate for State Treasurer will find strong opposition in C. F. Wright, the present incumbent, and J. Vermer of Washington county, who is urged by Editor Acheson, another candidate, just as the Quay caucus did in 1905, to the complete deception and utter undoing of the Flinn machine. The trick is old and will not work. It will be too closely watched.

There is quite a bunch of candidates for the four nominations for Congress-at-Large and this section contributes liberally to these ambitions. We note the names of Charles F. Hinkle of Connelville, George R. Scull of Somerset, A. H. Walters of Johnstown, E. F. Acheson of Washington and Charles A. Reek of Pittsburgh. The last four named are strong. Other candidates are: James G. Mitchell of Jefferson, J. M. Martin, Mercer; M. C. McCraith, Dubois; Guy B. Mayo, McKean; Arthur R. Hupley, Cumberland; W. H. Unger, Northumberland; Charles F. Schorn, Delaware; A. Nevin Petrich, Huntington; Fred C. Lewis, Altoona; W. C. Tompkins, Luzerne; Robert Towne, Lackawanna; James Follis, Philadelphia; John R. McLean, Jr., Philadelphia; Thomas K. Chert, Montgomery.

The platform has also been slated by Flinn. It is likely to give him some trouble, too. In his public political deliverances, he has inadvertently expressed himself kindly about Washington's Suffrage, but he did not see his way clear to put such a plank in his platform. His daughter is a leader of the movement in Pittsburgh, and it is rumored that the ladies will be on hand to urge the adoption of a Suffrage plank. Ernest F. Acheson and others will demand the insertion of a Local Option plank. Editor Acheson is one of the pleasure of the Roosevelt movement. He feels that he should have something to say in the subsequent proceedings, and perhaps something to get.

STEEL MILLS TAKING HEAVY
CONTRACTS FOR MATERIAL

International Harvester Company and
Railroads Appear in Market as
Big Buyers.

NEW YORK, April 29.—The steel mills closed additional heavy contracts for finished steel products as well as for billets and sheet bars last week. Buying was stimulated by the prospective advance in prices now in effect. The International Harvester Company was conspicuous among the largest buyers, securing large tonnage of steel bars and pig iron for shipment over the balance of this year. Another feature was the placing by the railroads of large contracts for motive power and rolling stock, including 7,400 cars and 145 locomotives. Contracts are still pending for 31,000 cars and 230 locomotives. Such orders mean that the equipment shops must place additional contracts for about 450,000 tons of steel. The prospect is thus bright for continued heavy buying and ample specifications to keep the mills operating at the present full rate for months. An unusually active summer appears assured. Contracts for rails were unusually small, scarcely 15,000 tons being ordered, but contracts are pending for 300,000 tons, including 250,000 tons for Australia, Canada and other export countries, enough only a portion of this will come to American mills. Structural contracts aggregated 18,000 tons.

MAY SUE ALMA MATER
FOR YEAR'S STUDY LOST

Medical Students of West Virginia
University Threaten to Bring
Action Against College.

MORGANTOWN, W. Va., April 29.—Facing the loss of a year's study following the failure of the Board of Regents to reorganize the Medical Department of the West Virginia University, medical students are threatening to sue the university for expenses and time consumed during the year.

The trouble grows out of the fact that the Association of American Medical Colleges does not recognize the Medical Department of the university. To obtain recognition the department was organized separately with its own and a separate faculty. West Virginia university formerly was a member of the association, but some time ago the membership was lost when the medical department became part of the college of arts and sciences.

The difficulty dates back prior to the opening of the school last fall when the students were advised to continue to the university and arranged that a recognition secured. No action has been taken and recently the students got together and notified the regents that unless something was done still would be brought. The regents said they would not take up the matter.

How Crossland Met His
Death Remains Mystery.

Connellsville Man Last Seen Alive at
Meeting of Mobs Lodged at
Pensacola.

How Richard J. Crossland, formerly of this place, met his death at Pensacola, Fla., remains a mystery that may never be cleared, according to additional information received here in a letter from Fort Buchanan, Crossland, a sergeant in the regular army, was detailed on duty at the dispensary at Fort Pickens, across the bay. On April 18 he was granted leave of absence until the following morning. That night he attended a meeting of the Blue Guard in Pensacola.

It is the custom of Fort Pickens men to return on the government boat which leaves Pensacola at 6.30 each morning. It is presumed that Crossland was on the boat and that he lost his footing, falling in the water. The body was not discovered until April 21.

MASSACHUSETTS IS
CENTER OF INTEREST

Primary Election There To-
morrow Will Have Far-
reaching Effect.

HOT FIGHT HAS BEEN WAGED

Roosevelt and Taft Have Been Hitting
Hard and There is No Local Issue
to Cloud the Outcome—Taft
Managers Confident of the Outcome.

Special to The Courier.
BOSTON, Mass., April 29.—After one of the hottest political campaigns Massachusetts has seen in years, the State-wide presidential preference primary will be held tomorrow. The primaries will be confined to the selection of delegates who will represent Massachusetts in the coming national conventions of the Republican and Democratic parties. The names of Taft, Roosevelt and La Follette will appear on the Republican ticket. On the Democratic ballot will appear the names of Wilson and Clark. Governor Foss withdrew his name from the ballot, though he still remains a receptive candidate for the Democratic presidential nomination and is expected to receive the support of the Massachusetts delegates when the first ballot is taken at the Baltimore convention tomorrow's primaries will determine who is to have the support of Massachusetts when it becomes apparent that Governor Foss has no chance for the nomination.

As early as last November astute politicians predicted that Massachusetts would be an interesting political battle by this year as some of the other States that have been known in the past as doubtful. In verification of this prediction it is only necessary to point to the fact that both President Taft and Colonel Roosevelt have visited each other in the Bay State since the contest between the two began in earnest.

Unencouraged by the re-election of Governor Foss and the defeat of the Progressive Republican candidate last fall the Progressive Republicans determined months ago to make a hard fight in Massachusetts this year. At first they hoped for nothing more than to prevent a solid delegation being sent to the national convention at Chicago. But developments of the past two months have so encouraged the Progressives that the leaders will be disappointed if they do not capture the State's primaries.

Since the Massachusetts primaries are not complicated with local fights of any kind they will offer a test of sentiment different from any that has gone before. It is a straight-out contest between Taft and Roosevelt on the Republican side, and not a single State or county office will be affected by the results. They will not even be indicative of sentiment affecting the governorship, or national issues, for that matter. The State convention is eliminated under the new primary law and the Massachusetts delegates to Chicago and Baltimore will not be governed even by a platform.

If Colonel Roosevelt succeeds in carrying Massachusetts it will mean in the opinion of his managers, that there will be no chance to check his triumphal march toward the nomination. The situation stands, the Taft people feel comparatively sure but at the same time they realize the moral effect of a Roosevelt victory in Massachusetts. They think that if Roosevelt carries the State the delegates from Southern States, always an uncertain quantity, will very likely flop over to the Roosevelt bandwagon and create trouble, if not disaster, at Chicago.

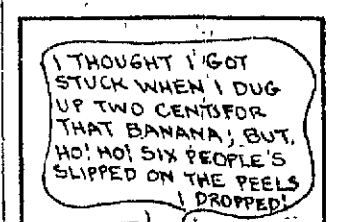

While the situation in Massachusetts is not so clear cut as the Democratic candidates, both Speaker Clark and Governor Wilson are anxious to get the Massachusetts delegates to the Baltimore convention. The Clark campaign got under way several weeks ago and the Wilson managers express themselves absolutely confident that the Speaker will defeat Governor Wilson in Massachusetts by a three-to-one vote. While they are not making any definite predictions as to the outcome, the Wilson managers appear to be not worried over the situation here. They say that Governor Wilson is certain to get his share of the Massachusetts delegates. At the same time they have taken nothing for granted and have taken some of their strongest campaigners into the State during the past week.

Rain and somewhat cooler tonight;
probably clearing late Tuesday, is the
noon weather bulletin.

The Temperature.	
Maximum	70 68
Minimum	40 74
Mean	55 61

The weather continues to consist mainly of rain—and more rain. Yesterday, strange to relate, Jupiter Pluvius stood off the job until evening. Yesterday morning was clear and beautifully cool, because the bright sunshine melted the snow. In the afternoon the sky became overcast and pedestrians who took to the mountains were home before the shower fell. However, the rain held off until after dark.

Last night the wind blew a gale that shook things up generally. This morning early riders were greeted with the showers that have been so familiar for the past few weeks. The rain continued throughout the morning.

PRESIDENT TAFT OUTLINES
RECORD AT ATTLEBORO TODAY

Drops Attack Upon T. R. to Tell of
Constructive Policies His
Advocates.

United Press Telegram.
ATTLEBORO, Mass., April 29.—President Taft, following T. R.'s trail through the factory district of Massachusetts, abandoned his personal attack on his predecessor here and attacked himself to his administration's labor record—employer's liability and workmen's compensation. The President also claimed for the Payne-Aldrich tariff bill that the credit for the prosperity of this busy jewelry-making town would be paid off, but no official action in that regard has as yet been mistaken. About 35% back dividends had accumulated up to last January.

Present operations of the company, it is said, are satisfactory, and now that his labor troubles have been settled a period of prosperity is looked for. There have been rumors that in the near future the back dividends would be paid off, but no official action in that regard has as yet been mistaken. About 35% back dividends had accumulated up to last January.

PITTSBURG COAL CO. STOCKS
SHOW STEADY APPRECIATION

Since the Beginning of This Month
Common Stock Has Advanced
Three Points.

The Pittsburgh Coal Company does not issue quarterly statements, but it is known, nevertheless, that net earnings of the company during the first three months of the present year were far above those in the corresponding period last year. In the first quarter of 1911, the company's operations resulted in a considerable deficit, whereas this year the net earnings for the first three months showed a substantial surplus. An increase in the preferred dividend from 5% is in prospect.

Another cause for the activity of the stocks in the market is the large benefit which the company will derive from the recent ruling of the Interstate Commerce Commission in the Pittsburgh-Lake district rate case, by which the rates for coal carried to that district were reduced 10 cents a ton. It was estimated that the company will benefit to the extent of about \$1,100,000 a year by that ruling, but this will be offset to some extent by the increase of 5 cents a ton in wages to the miners. The net advantage to the company, however, will be about \$600,000 a year.

Pittsburgh Coal Company strengthened its financial position during the past year by the purchase and cancellation of \$8,800,000 first mortgage bonds at 110 and interest. It was enabled to do this as a result of the sale of about 7,000 acres of measured coal to the U. S. Erie Coal Company for an aggregate consideration of not less than \$10,000,000.

Those who are in the best position to know the facts express the fullest confidence in the company's future. It is pointed out that Pittsburgh coal is the best of its kind in the world, that the company owns 140,000 acres of coal lands valued at about \$350,000, and that the main reason for the poor showing of the company hitherto has been the keen competition in the bituminous market. It is understood that steps are being contemplated to minimize this evil.

Present operations of the company, it is said, are satisfactory, and now that his labor troubles have been settled a period of prosperity is looked for. There have been rumors that in the near future the back dividends would be paid off, but no official action in that regard has as yet been mistaken. About 35% back dividends had accumulated up to last January.

MARCONI EXPLAINS WHY
MESSAGES WERE SCARCELY

WASHINGTON, April 29.—Marconi, the wireless wizard, again was called before the Senate investigating committee today. Particular inquiry was made to whether John Jacob Astor was on the Carpathia when it was sunk, and that the main reason for the poor showing of the Carpathia's call and sent orders for all other stations not to interfere. On April 18 one of the messages to a tug ordered the transfer to the Carpathia of Jack Blinn because the Carpathia's operators were busy transmitting messages from survivors to friends and relatives ashore.

Marconi said that his inability to get information from the Carpathia was because the operators were busy transmitting messages from survivors to friends and relatives ashore. Much of Marconi's testimony was a repetition of what he told last week.

MACKAY-BENNETT WILL NOT

HALIFAX, Nova Scotia, April 29.—The Mackay-Bennett with the Titanic's victims on board, will not reach here until 9 o'clock Tuesday morning. Captain Lordier today sent a wireless dispatch to the White Star agent here announcing that he is being delayed by bad weather.

Soap and water remove surface dirt but they do not thoroughly remove the little germs which cause and taint the milk. The greatest of all cleansers is Gold Dust washing powder. It not only removes all the visible dirt and grease, but goes deep after every trace of impurity, and leaves the milk pails, cans and bottles really clean, wholesome and safe. Moreover, it does the work more quickly and easily than any other cleanser known.

NEW YORK, April 28.—All the Boy Scouts in America will wear crepe for thirty days in memory of their vice president, Col. John Jacob Astor, who went down with the Titanic.

NEW YORK, April 28.—President Taft made a five minute talk over the long distance telephone from Boston to newspaper men dining at the Waldorf. Each man had a telephone receiver at his plate.

NEW BRUNSWICK, N. J., April 28.—Only one pigeon egg in a nest was cracked when a storm wrenched a 137-foot church steeple to the ground.

MAP OF NORTH AMERICA

United States Geological Survey Issues New Map of Continent.

"Too many people would guess that the Atlantic end of the Panama Canal is on the west coast of Panama and that the Pacific end is on the east coast." Look at the map and see how the east coast of the Isthmus becomes a west coast. Although there is nothing so simple as to show the continent of North America, it is worthy of note that the United States Geological Survey has just issued a large map of North America, 25 by 35 inches, in three colors. This is probably the most accurate general map of its character that has yet been published and is particularly well adapted for school work. It is on a scale of 1:50,000, which is sufficient to show the detail of the major geographic divisions, such as States and provinces. Colorado thus extends 24 inches east and west and Cuba 4 1/2 inches the longest way. The map is led by the Director of the Geological Survey, Washington, D. C., at the nominal price of 20 cents a copy, or at a discount of 40 per cent in case as many as 25 maps are ordered. The wholesale rate covers simply the cost of paper and printing.

RECOMMENDS SEWER.

Committee Decides in Favor of Brown Alley and Snyder Street.

To consider the construction of a sewer at Brown alley and Snyder street the Sewer Committee met last night. Assistant Borough Engineer Hiest was present and went over the matter in detail, and it was decided to recommend the construction to Council.

Complaint was made to Council some time ago as to the condition of the street on the hill.

Wedding in Naval Circle.—A wedding of interest in naval circles took place in Philadelphia this afternoon, the bride being Miss Pauline Parsons, daughter of Captain Remus Charles Parsons, in charge of the naval hospital in this city, and the bridegroom Lieutenant David McDermott, Jr. of the U. S. N. After a two months' tour of Europe the couple will take up their residence in Boston, where Lieutenant McDermott is at present attached to the Charleston navy yard.

Colorado May Not Institute.—COLORADO SPRINGS, Colo., April 28.—Colorado Democrats lined up here today for the State convention to name 12 delegates to the Baltimore convention. Despite the strong support given early in the campaign to the Harmon boom, the real contest in the convention promises to be between Clark and Wilson and between these two the delegates appear to be so divided that the outcome may be an untroubled delegation to the Baltimore convention.

Country Lacks Tin Deposits.—Tin is one of the minerals in workable quantities in which the United States is lacking. Our production in 1910 was valued at only \$23,147, according to the United States Geological Survey, while our importations were worth \$9,913,255. We need one or two large tin mines.

For Uniform Milk Standards.—LOUISVILLE, Ky., April 28.—Uniformity of methods and standards in the production of certified milk throughout the country is the object sought by the American Association of Medical Milk Commissioners which will meet in this city tomorrow for a two days' session.

Her Condition Improved.—C. W. Simpson has arrived home from Wheeling, W. Va., where he was called by the illness of his wife, who is at the home of her parents, Mr. and Mrs. M. G. Stubb in Wheeling. Mrs. Simpson's condition is greatly improved.

Goes After Trusts.—Deputy Sheriff Cameron LaClair left this morning for Columbus, O., to bring back James Bennett, a negro trusty, who escaped from jail April 15.

WOMAN AT STEEL MEETING

Gallantry Revived Among the Men, and Every One Sat Up Straight. The annual meeting of the Steel Corporation was about to begin. All about the room spools of smoke from lusty cigars wound their separate ways toward the low ceiling, and the hairs of the fifty or more stockholders were lifted over one eye or placed precariously on the backs of the heads, of the fifty, Judge Gary had entered and taken his place and the stockholders chairs for a long session when the door opened and an old woman entered and stood timidly looking for a vacant chair. Several of the men rose and she accepted a chair, thanked the men and sat down.

In less than a minute every hat was off, and smokers were soon furiously to drop their cigars and twist them out with their heels. They sat up in their chairs instead of leaning back in them, and what's more they seemed to like it instead of resisting it. The woman stayed through the meeting and resolved her lunch, consisting of a chicken sandwich, seeming not to notice that she was alone among barbarians.

"There's a Reason"

Got "The Road to Wellville" in play.

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and Colonel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing laxative.

No gripping is the "keynote" of these little sugar-coated tablets.

They cause the bowels and liver to act normal. They never force them to unnatural action.

It is easy to compel bowel and liver activity for a time with calomel and nasty, sickening, griping castor oil, but the after effects are dangerous, and the real cause of the trouble is often not been touched.

Dr. Edwards' Olive Tablets are so easy to take that children do not regard them as "medicine" at all.

If you have a "dick brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and constipated, you'll find quick, sure and only pleasant results from one or two little Olive Tablets at bedtime. They're perfectly harmless.

Thousands take one every night just to keep right. Try them.

"Every little Olive Tablet has a movement, all its own."

THIS STRIP USED EFFECTIVELY.

Although plain in outline this garment is very desirable, owing to the way in which the striped material is used.

Both materials are blue serge, the strip being a coarse thread of white.

The wide lapels extend to the waist line in the back, where they are fastened by buttons and loops.

These buttons are of white pearl with loops in the middle of white satin cord. The cord also passes through the buttons to fasten them in place.

The skirt is of the envelope variety and closes at the side front.

Lower Rates on Lake Ore.

The Pittsburgh coal rate case has been the way for further freight rate adjustments. A coal company operating near Brownsville has broken into the Pittsburgh radius and a Pittsburgh steel company is demanding a reduction in the ore rate from the Lakes with every prospect of measurable success.

It has been shown in the Interstate Commerce Commission that the railroads are charging 99 cents per ton for transporting ore from the Lakes to Pittsburgh while the actual cost to them is but 36 cents. This complaint alleges that this is extortionate. In the coal case it was argued that the railroads got ore as a back-haul from the Lakes, but it seems from the relative volume of business that coal is the back-haul of the ore.

The high rate on ore puts the independent iron and steel makers of the Pittsburgh district at a special disadvantage with the United States Steel Corporation, which owns its own railroad to the Lakes and is thus able to lay down its ore at its Pittsburgh furnaces at much lower cost than the independents can hope to do.

The latter fact, therefore, that they should have at least fair ore rates from the railroads.

Bookless Roosevelt.
Colonel Roosevelt is getting more and more reckless in his public utterances. He recently declared that President Taft, as a member of his cabinet, was present at a meeting which approved President Roosevelt's decision not to immediately prosecute the International Harvester Company as a Trust, and that Taft voted in favor of that action.

President Taft now produced documentary evidence to show that he was not in this country at the time, the question having come up during his absence in the Philippines. In this he is corroborated by Herbert Knox Smith.

The matter is not mentioned here for the purpose of discussing the merits of that Cabinet action, but merely to illustrate the utter recklessness which has characterized Colonel Roosevelt's declarations since he has entered upon his "receptive" campaign for a third term.

The titanic assessment is due next fall and the Washington Observer remarks that it is already attracting attention in many counties. It will attract a great deal more attention after the returns of the assessors are filed.

The Cannonsburg Notes denies that the women of that peaceful community are gun-toters and blames it all on Burgettstown. The woman's weapon in Cannonsburg is probably the most answer that turn out away wrath.

The fly is due to have a lively summer. A price has already been set up on his head in some communities.

The United States Geological Survey estimates that the amount of damage done annually by smoke is \$100,000,000. Here in the Connelville coke region, no one is glad to have the smoke and endure the damage.

It is estimated that the American people spend \$1,000,000,000 annually on baseball, and many people believe it is money well expended.

A permanent road sewer at five plunks per day is a rather soft bid for gentlemen of leisure.

Ferncroft will not move out of the summer resort class because the Western Maryland came into Ohio.

A new study has been added to the public curriculum. It is "Connellville." The new branch can be studied with profit to the student and to the community.

Scotchmen will win it, says yet.

"WHO IS WHO?"
Solution is Given Today: Also Names of the Prize Winners.

The "Who is Who" publicity feature which appeared on week ago in the columns of this paper, was quite a success, inasmuch as it attracted unusual attention from the public. It seems as though the whole community is people wanted to find "Who is Who" and the question "Who is Who" was the talk of the town and among everybody, when the feature came out in our paper.

Many answers were received and out of them, we are publishing the prize winners' names, on the space first occupied by the conditions of the contest.

The correct list of the "Who is Who" advertisers is also published with their write-ups according to the number of their space.

"Woman's Work is Never Done."

It is the faithful woman in the home, who does the cooking, sweeping, dusting, washing and ironing, ambitious to keep her home as neat as a pin, and often having two or three children who require care and attention, who calls for our sympathy. Overwork is the result. Outraged nature asserts itself in time and female troubles appear.

Such women should remember that Lydia E. Pinkham's Vegetable Compound is the exact medicine they need when their stomach is overtaxed and female weakness and derangements make life a burden. For nearly forty years it has been the standard remedy for such troubles.

"Casey Jones" Tonight.
You are laughing between weeps and laughter if you are lucky enough to get a seat for that breezy comedy "Casey Jones" which is the attraction billed for the Saison Theatre tonight. It is a rollicking picture that penetrates the folios of everyday life, but does it so cleverly that even the most

affected appreciated it the most. Laughter that stimulates and special-tunes that please, bubble off unconsciously from the merry farce comedy "Casey Jones." From indications this attraction will prove one of the most interesting and enjoyable offerings of the present season.

Services at Hospital.
Special services were conducted yesterday afternoon at the Cottage State hospital by the young people from the Christian and First Baptist churches.

Look around you next time you are here and see for yourself the evidences of increased business—visit the carpet room and see the rugs and carpets piled up ready to be delivered when wanted. These are things that tell a story that cannot be doubted.

You hear a great amount of talk these days about the New English Toe for Men. It is getting to be very popular. Banister makes the real ones in black and tan. Mostly with invisible eyelets. They come in Walk-Over labeled "Custom Made;" made either in the high shoe or the Oxfords. The prices are reasonable for high grade goods as Walk-Over and Banister footwear.

When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr.

The GLOW of the RUBIES

CHAPTER XXXII.

In the Glow of the Rubies.
Evening had come again.
In fact, it was almost bedtime.
Frances and I sat before the hearth in the library, looking silently into the red heart of the dying embers of fragrant pine cones. For in the heights of the Potomac Hills it often is chilly on summer nights.

My darling sat on a low fauteuil, her chin resting upon her hand, her beautiful eyes fixed dreamily, inscrutably, upon the fading coals. In her lap lay the spread of the crimson pajamas.

She was thinking—thinking—I wondered what? And I was thinking how jolly fun it all was, that Frances wasn't Frances, that the professor wasn't Billings, Colonel Francis Kirkland wasn't Foxey Grandpa and wasn't the frump's father after all, and that the frump, herself—bliss her, her name was Elizabeth—wasn't Frances, and wasn't a frump at all, but just a jolly, nice, homely old dear, you know. And I was trying to catch and hold some of the deuced queer things the professor had discoursed upon about "Occidental" what's-its-name, and astral bodies, obsession, psychical research and all that sort of thing. Somehow, dusk it had all seemed devilish unreasonable and improbable to me; couldn't get hold of it, you know; but as everybody else had said "Ah-h-h!" and had wagged their heads as though they understood, I just said: "Dada! It, of course, you know!" and re-crossed my legs and took a fresher grip on my monocle.

The most devilish hard thing to

get hold of had been that Frances had never sat on the arm of my Morris chair, had never told me she liked me better than any man she had ever met, and had never called me "Dicky."

There Was a Flash, a Lightning Blaze of Red.

at any time or anywhere. I wondered if she ever would, and how the deuce fellows went about it when they proposed to the girl they madly loved. I was devilish put out, you know, that I had never tried it so I could know.

From across the hall droned the voices from the smoking room—Colonel Kirkland and the judge debating something about treaty ports and the Manchurian railway. Through the French windows from the open loggia came the eager, pitched tones of the professor and the frump—no, Elizabeth, I mean—discussing Aldobran and Delagrove, dead suns, star clusters and the nebular hypothesis.

Within the room Billings had snapped out the lights, to bring out the blinding fire of his treasured ruby, and from the tray in the dark corner where he was closing it in his collection vault, it gleamed like the end of a bright cigar. The other four were absentely clutched in my darling's hand and the crimson shine gleamed heavily through her finger bars.

"Carbuncles—ancient carbuncles," the professor had called them, "that the Chinese believed their dragons carried in their mouths, in their black

caves in days of old, to furnish light whereby they could see to devour their victims." And that I believed, for I could see some practical sense about it!

"What I should like to know," said the dear, precious cub, hugging his knee by the mantel, "is where I come in!"

"You don't come in," said Billings, lifting him playfully by the ear; "you come out!" And out they went.

And my dear girl and I were like what's-its-name's picture—alone at last, you know. She stirred sottly and her sigh came like the wind through the trees at night.

"I suppose we will have to burn them," she said dolefully, "the professor says it is the only thing to do."

"Jolly shame, I say!" I murmured indignantly.

"It seems a crime," she said sottly, and there was a little choke in her voice. She whipped to the soft flared rug before the fire. I gently brought my chair closer to her.

For a moment she pressed her cheek against the crimson mass, then kneeling forward, laid it gently on the glowing coals. There was a flash, a lightning blaze of red that almost blinded us, and then for a brief space a field of shining ash. Against it the tiny serpent flicks writhed a

twisted and turned at last to leaden gray. Over the spread of ash, snout ways after wave of golden, crimson pictures—temples and pagodas—dragons that licked fiery tongues at us—strange faces that came and went, leering hideously into our own.

And then of a sudden it was all faded—gone! The pieces from the open window stirred the ashes to the side. She dropped back with a deep sigh.

"They're gone," she breathed mournfully.

Never mind, I said; "you've these left." And daintily I laid my hand upon the one that clasped the rubies. And I thrilled as it lay still beneath my own.

"Good by, you dear old wicked, enchanted pajamas," she said. "I don't care—I just love you, because—" She paused.

"Because they brought us together?" By Jove, I didn't know I had said it, till it came out.

An instant, and then I caught it—just a little whisper, you know: "Yes—Dicky."

By Jove! And then, dada it, my monocle dropped! But I let it go. Presently she looked at the glowing rubies in her hand.

"They are from India, you know, Dicky—from Mandalay, the professor

said." And she murmured "On the road to Mandalay, where the old British lay"—don't you remember? I've been there, Dicky.

"By Jove!" I said. "Have you thought? Is it jolly?"

The poet seemed to think so—"She laughed. Do you know Kipling, Dicky?" I tried to think, but dashed if I could remember.

I wondered if it would be a good place to take a trip to!

I hit closer. "What does—or—this poet chap say about it? What's it like, you know?"

She laughed. "I'm afraid it's wicked, Dicky, a good deal like the haunted palamas." She leaned forward, chin upon her hand again, looking into the fading coals. "I'll tell you what he says."

Then her voice went on:

"Ship me somewhere east of Buz," where the best is like the worst. Where there aren't no Ten Commandments an a man can raise a thirst."

"By Jove!" I said, interested, "For the temple bells are callin', and it's there that I would be—By the old Mahmoud pagoda, lookin' lazy at the sea."

I brought my hand down on my knee.

"Oh, I say, you know—or—Frances," I exclaimed with enthusiasm, "we'll go there for our honeymoon, by Jove! Shall we—eh?"

And then the jolly rubies rolled unheeded to the floor. And nothing stirred but the ashes of the haunted pajamas!

And then—Oh, but Frances says that's all!

INDIGESTION

Causes Dizziness, Nervousness, Biliousness, Sick Headaches and Sleeplessness.

You know that most of the ailments named above come from an out of order stomach.

When your food reaches the stomach it should digest and furnish nutritious matter to the blood.

If it doesn't digest, but lays heavily on your stomach, it has started to ferment.

When it ferments it sets loose in the stomach a poisonous gas which irritates the great pneumogastric nerve that leads directly from the brain to the stomach.

That irritation causes heartburn, dizziness, nervousness, and other ailments.

MILONA is guaranteed to end all stomach misery, or money back. 50¢ everywhere.

Recent Trip to Market.

Every woman knows the delight of choosing from a great array of clothing—choosing what suits her taste, what suits her purse. But it is only the merchant with a great and fashionable clientele who can experience the fascination there is in choosing scores of suits and gowns from collections that number hundreds—picking and choosing—brushing aside a dozen and selecting one—taking none but the finely made—none but the fashionable, none but the true in fabric and taste. And after all that, paying but a little!

We cannot take our customers with us when we go into the market—but we can show you today the result of a past week's buying in a market that is upset and show you what really wonderful savings we have for you.

Silk Dresses at \$6.75—made to sell at \$10—and selling briskly today—illustrates the point exactly.

The Newest Spring Style in Women's Smart Footwear is the Colonial Pump

Wright-Metzler styles in Colonial pumps have the neat and trim appearance required by the vogue of the shortened skirt. Shown in dull, tan, patent and suede leathers and in white, \$2 to \$4 a pair. Button, straight lace and blucher Oxfords in all the leathers and silk, satin white nubuck and canvas—\$2.00 to \$3.50 pair. We show more styles in white—the leading color—than any other store in town.

Why Use a Broom?

Sweeping is back-breaking work, and only the strong, vigorous woman can do much sweeping without feeling the effort.

Here—in the Sixth Floor Carpet Room—we have a "one-person" Vacuum Cleaner at \$3.50 that is going to drive the broom into restricted use. It's so simply constructed it can't get out of order. It cleans as thoroughly as any machine made, and the cost of it—read it a second time. Come up and see it at work.
